

FENG SHEA FACIAL SCRUB

Morocco Method Feng Shea Facial Scrub combines the finest natural ingredients from land and sea to benefit your skin. Unlike chemical facial scrubs that use plastic microbeads that pollute water sources, Morocco Method uses all natural and biodegradable walnut shell powder as its exfollient. It is specially formulated to exfoliate, detoxify, deep cleanse and invigorate while also softening and moisturizing your skin.

This all-purpose product even balances the dermal pH and improves blood circulation so that you see a freshly-nourished, revitalized glow when you look in the mirror. Used regularly, it heals the damaging effects of sun and wind, aids in minimizing fine facial lines and imparts to your skin a fresher, more youthful appearance.

Instructions

Wet face with warm water. Apply a coin-sized amount of Feng Shea to face and gently rub in a circular motion. You may also apply it to body with the same motions. Rinse off with cool water. Pat face dry. Use product weekly in your exfoliating routine. Follow up with a drop of Euro Oil for additional moisture.

Words from Our Customers

"I had developed bad skin problems on my face due to food allergies, which were diagnosed during the past year. Making healthy dietary changes helped a lot but I still had a hard time trying to find cleansers/moisturizers that wouldn't irritate the sensitivity of my skin. No matter what products I used (even the ones claiming to be raw and vegan), I would get some kind of uncomfortable reaction, either slight or more pronounced. I recently purchased one of your MM products, the Feng Shea Facial Scrub, and have used it repeatedly with no reaction ... absolutely none! My skin felt totally normal and very nicely hydrated — no tingling, burning, itching or redness at all. I am really thrilled and optimistic now."— Sarah

"Straight soap was always much too harsh for washing my face, yet cream-base cleansers—even the over-the-top hyped, expensive department store brands—never left my skin feeling really clean. I also wanted to be able to gently exfoliate, so that I could be totally sure everyday pollutants were thoroughly removed from my face before bedtime. Well.... guess what? I found Morocco Method Feng Shea Scrub and this excellent product does it all: gentle but very deep cleansing, purifying and moisturizing. Although at this point I'm in the 'mature skin' category, as a result of using Feng Shea nightly my face feels as soft as a newborn baby's behind!" — B. J.
