

## BEGINNER SERIES: SILVER & GOLDEN ELIXIRS

---

Morocco Method Silver & Golden Elixir Set is meant to be a complete re-balancing of your scalp's oil production. Just a few drops applied around the hairline and crown is enough to begin the re-balancing process. For more info, visit [morroccomethod.com/silver-golden](http://morroccomethod.com/silver-golden)

### **Your Elixir Regimen**

Before even starting elixirs, your hair and scalp should be thoroughly detoxified. This is best achieved by switching to a completely natural and holistic hair care regimen with Morocco Method products. This allows your hair and scalp to be most susceptible to the elixirs, so not a drop is wasted. A good rule of thumb is to be over the potential detox period or at least three months into a holistic regimen. If doing a full Elixir regimen, wait one month then follow with the God/Goddess Elixirs.

### **Silver Grapeseed Elixir • *Lengthen***

This elixir is intended for excessively oily scalps and works by cleansing the scalp and readying it for more balanced oil production.

### **Golden Crystal Elixir • *Beautify***

Formulated from herbs and minerals gathered from around the world, the Golden Crystal Elixir works by increasing oil production on dry scalps.
